ABOUT CROUZET

Supported by an experienced technical team, Crouzet is a pioneer in the simplification of programming.

The brand offers the easiest-to-use and most adaptable alternative automation solution for specialized and demanding needs.

Crouzet is a brand of InnoVista Sensors™.

INNOVISTA SENSORS

InnoVista Sensors™ is a worldwide industrial specialist of sensors, controllers and actuators for automated systems.

Through its brands, Crouzet and Systron Donner Inertial, InnoVista Sensors™ offers a wide range of reliable, efficient and customizable components dedicated to the Aerospace & Defense, Transportation and Industrial markets and segments.

Thanks to the recognized expertise of its teams and a strong innovation policy, InnoVista Sensors™ brings performance enhancing solutions to its customers worldwide.

InnoVista Sensors™: your trusted partner of choice to face industrial challenges of today and tomorrow.

ADAPTATION WHEEL

To meet market expectations and provide customers with the right solutions within the shortest timeframes, Crouzet has structured its processes around different types of products: standard products, adapted products and products specially developed for a customer. Introducing the adaptation wheel...

1 STANDARD COMPONENTS

A complete range of logic controllers immediately available to create your automation application.

2 COMPONENTS WITH ADDED VALUE

Standard products complemented by factory-mounted auxiliaries or accessories (connectors, wire outputs, cables, etc.) in order to assist integration into your equipment, simplify your logistics and maximize the reliability of your installation.

3 ADAPTED PRODUCTS

Defined jointly with our technical sales teams, these adapted products offer the exact performance and functions you need for your application.

4 SPECIFIC PRODUCTS

All our design and industrialization expertise in automation systems at your service, to design and create specific products dedicated to your application.

WHICH SOLUTION DO YOU NEED?

em4 is more than just a nano-PLC: it is a leading edge device supported by best-in-class tools that enables you to create and implement the smartest automation applications with em4 soft.

NANO-PLC

em4 remote

The first all-in-one solution to bring your application into the Internet of Things

Remotely manage your equipment and application programs

Remotely display or control data values with a web platform

Receive and manage notifications when an event occurs in your application

Periodically receive data log reports by email or FTP

Remotely display or control data values with SMS

Receive an SMS or an email when an event occurs in your application

em4 alert

The PLC which sends alerts via SMS, stores data logs in .csv (Excel) and sends them by email or FTP

Embedded configurable 0-10V/4-20mA accurate analog inputs

Powerful & up to 24 analog inputs included

0-10V
4-20mA

Modbus RS485 slave interface option for connection Touch HMI

em4 local/ethernet

The em4 for stand alone use or local area network

The **Millenium 3 Smart** logic controller is the easiest programmable module to use on the market. Easy to program thanks to M3 Soft, it enables the control and monitoring of machines and automation installations with up to 50 I/Os.

LOGIC CONTROLLER

Smart Expandable

Offers a large variety of expansions (digital, analog I/Os...), up to 50 I/Os

Smart Expandable

Smart Compact

The easiest logic controller to implement, to program and to use on the market

Smart Compact

Essential

The right product to tackle simple applications that still require a powerful logic controller

Essential

Application example

Access Control

Millenium 3 offers both standard and customized product solutions for a range of applications, including automatic barriers, automatic doors, turnstiles, sectional doors and disabled access ramps.

em4 soft

The most intuitive programming software on the market

em4 web

Provides powerful application and device management

em4 local

* Network-compatible 2G/3G.

em4 alert

em4 remote

Water treatment

Application example

With the capability to manage pump circulation, monitor liquid levels, and measure the temperature and conductivity of water, em4 can help you take your application to the next level.

M3 soft

The M3 Soft is a high-performance software platform used to program the Millennium 3 logic controller and optimize design times.

Digital expansions (up to 50 I/Os) & analog (0-10V, 4-20mA, Pt100)

50 I/Os
0-10V
4-20mA

Modbus RTU and Modbus TCP/IP expansions

Additional application specific functions (autotuning PID, astronomical clock, ...)

Direct connection of NTC temperature probes and LDR luminosity sensors

Enhanced visibility on the display with high contrast, blue back lit LCD screen

Extended temperature range (-20 °C to +70 °C)

Powerful and cost effective

Bluetooth® connection accessory for all the range for applications that are complex in terms of access

WHICH SOLUTION DO YOU NEED?

The Millennium 3 logic controller and the em4 nano-PLC are the easiest to use programmable modules for various applications. With simple and intuitive software, controlling and monitoring of machines and automation installations is incredibly simple.

Millennium 3 Smart Expandable

Offers a large variety of expansions (digital, analog I/Os...), up to 50 I/Os

- › Expandable versions: 10 I/Os and 26 I/Os
- › With or without display, in 24 V $\overline{\text{--}}$, 12 V $\overline{\text{--}}$, 24 V \sim and 100 \rightarrow 240 V \sim versions

Multiple configuration options derived from an extensive product range with numerous accessories

Millennium 3 toolbox

M3 soft

50 I/Os	Digital expansions up to 50 I/Os	Highly visible blue LCD
0-10V 4-20mA	Analog 0-10V, 4-20 mA, Pt100 expansions	Direct connection of NTC temperature probes
Modbus RTU and Modbus TCP/IP expansions		Additional application specific functions
		Extended temperature range (-20 °C to +70 °C)
		Bluetooth® connection accessory

Millennium 3 Smart Compact

The easiest logic controller to implement, to program and to use on the market

- › Compact versions: 12 I/Os and 20 I/Os
- › With or without display, in 24 V $\overline{\text{--}}$, 12 V $\overline{\text{--}}$, 24 V \sim and 100 \rightarrow 240 V \sim versions

Application-specific solutions thanks to dedicated and easy to use specific function blocks

Millennium 3 toolbox

M3 soft

Highly visible blue LCD
Direct connection of NTC temperature probes
Additional application specific functions
Extended temperature range (-20 °C to +70 °C)
Bluetooth® connection accessory

Millennium 3 Essential

The right product to tackle simple applications that still require a powerful logic controller

- › Compact versions: 12 I/Os and 20 I/Os
- › Expandable versions: 10 I/Os and 26 I/Os
- › With or without display, in 24 V $\overline{\text{--}}$, 12 V $\overline{\text{--}}$ versions

The Millennium 3 Essential range is the cost effective solution for simple applications

Millennium 3 toolbox

M3 soft

Powerful and cost effective	
50 I/Os	Digital expansions up to 50 I/Os
0-10V 4-20mA	Analog 0-10 V, 4-20 mA, Pt100 expansions
Modbus RTU and Modbus TCP/IP expansions	
Simplified Bluetooth® connectivity	

em4 remote

The first all-in-one solution to bring your application into the Internet of Things

- › First PLC capable of fleet management including map localisation
- › Highly secured solution, using e-banking practices and infrastructure
- › Expandable from: 26 I/Os up to 46 I/Os

SIM card (2G version) & remote management subscription included for one year (em4 web, em4 app)

	Machine / Equipment fleet management		Advanced event management
	Secured platform and connections		Advanced data history
	Device maintenance & management		Advanced monitoring and control functions
	Map localization		Advanced remote services for your customers
	Automatic clock synchronization		Customizable web interface

em4 toolbox

em4 soft

em4 web

em4 alert

Nano-PLC that can alert you via SMS and email

- › Needs only GSM network to operate (SMS)
- › Secured solution, only users identified in the PLC can interact
- › Expandable from: 26 I/Os up to 46 I/Os

* Compatible réseau 2G/3G.

No need to perform complicated integration between the PLC and a modem/gateway

	Event management via SMS and email		Monitoring and control functions via SMS
	Data report via SMS and datalogs via email or FTP		PLC to PLC SMS communication
	Remote application program update		Remote directory management

em4 toolbox

em4 soft

em4 local/ethernet

The em4 for stand alone use or local area network

- › The most compact and powerful of its category
- › Includes highly accurate 4-20 mA analog inputs for industrial sensors
- › Expandable from: 26 I/Os up to 46 I/Os

Easily swap from one version to another version (remote and alert), enabling the upgrade of the equipment

	PLC with local functions only		Modbus RS485 slave option interface
	0-10V 4-20mA		The most intuitive graphical function block language
	Modbus TCP/IP		Modbus TCP/IP client and server

em4 toolbox

em4 soft

SELECT YOUR CONTROLLER

Our products are specifically suited for integration in a wide range of applications.

- › Highly visible blue LCD with 4 lines of 18 characters and configurable backlighting
- › Allow the use of the entire library of specific function blocks in the software workshop
- › Extended temperature range (-20 °C to +70 °C)
- › Analog inputs 0-10 V_{DC}, Potentiometer, NTC, LDR (0-20 mA/Pt100 with converters)

- › Save time designing your application and remote functions using the most intuitive graphical function block language on the market
- › Accurately measure your high end industrial sensors with the embedded configurable analog inputs (including 4-20 mA)
- › Easily integrate one of our three high tech designs in your machine
- › Adapt your application during its lifecycle thanks to the enhanced controlling performances

Smart

WIDE RANGE OF ACCESSORIES FOR BOTH

em4

MOST INTUITIVE PROGRAMMING SOFTWARE ON THE MARKET

Simple

- › Quick, simple and intuitive programming which does not require specialist knowledge
- › Self-teaching made easier thanks to a user-friendly online help guide and programming examples
- › A simulation mode that consistently represents controller operation

Powerful

- › A complete range of more than 100 function blocks
- › All basic functions: counting, timing, comparison, display, logic, gain, sin/cos, etc. are also available
- › A wide range of dedicated functions: pump rotation, PID regulation, movement, pressure, level, water ratio, solar tracking, and flow

User-friendly and ergonomic

- › Software available in 5 languages: English, French, Italian, German and Spanish
- › Function block programming is fun and very visual
- › Programming languages:
 - FBD (Function Bloc Diagram)
 - SFC (Sequential Function Chart/Grafcet)
 - LD (Ladder Diagram) only on M3 soft

User-definable and effective

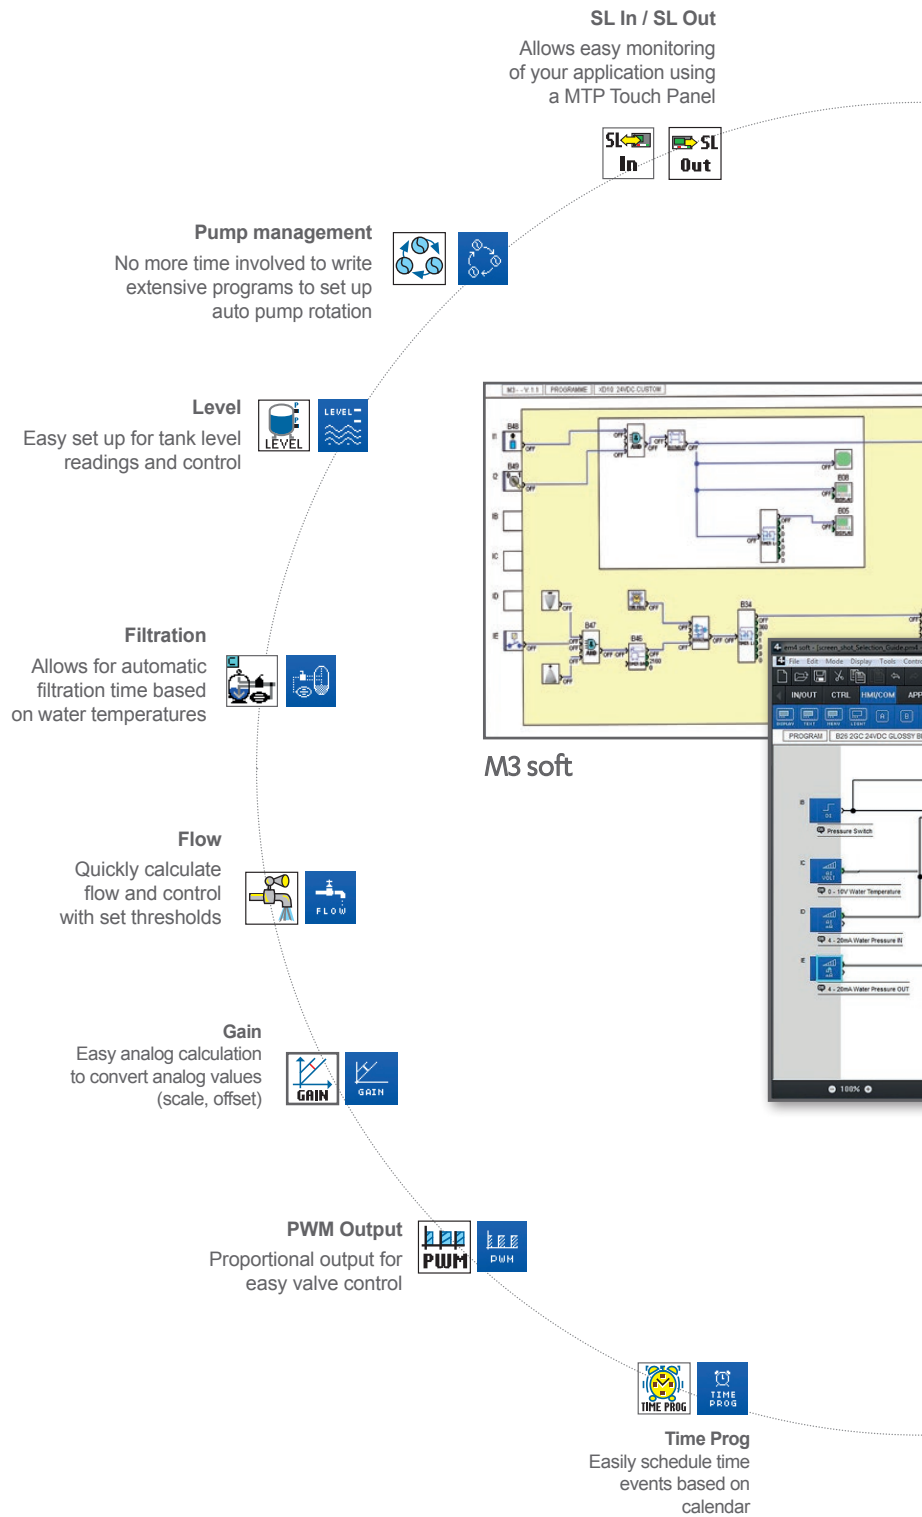

- › Possibility of creating and saving custom macros allowing the user to simplify programs
- › Possibility of locking macros with a password for greater security

M3 SOFT

M3 Soft is the easiest programming software to use on the market. It is also incredibly powerful and user-friendly. Thanks to the most comprehensive library of application-specific function blocks in the industry, it allows you to customise your applications.

M3 soft
Function blocks

em4 SOFT

em4 soft integrates all the remote management features in a single tool. Based on our strong experience in Millenium programming software development, em4 soft is the new easy-to-use programming tool dedicated to em4.

em4 soft Function blocks

Event

Allows up to 24 events
SMS/email messages including 2 attached analog values

Data Logging

Allows up to 3 blocks of 8 values to be logged at a specified time interval or on command signal

Monitoring

Allows easy remote monitoring and control of your application

32 bit function blocks

Allows high speed count, tachometer, power management, calculation with 32 bit values

Display

Large 4x18 character display allows user to visualize text, status, times and control values in the program

PID Regulator

Will interface with water booster drives for pressure needs based on demand

Sunset / Sunrise

Calculate the sunrise and sunset time

em4 WEB

With em4 remote, your equipment gets the simplest access to the Internet of Things

- The em4 web provides you with a powerful **device management** web-based platform.
- There is no need to configure the communication: log on, identify your em4 remote and instantly get connected!
- It allows you to easily manage your em4 fleet on demand:
 - manage your access rights, as well as your customers
 - **download** your application program or firmware
 - **monitor** and control your devices
 - **locate** them on a map
 - display your **data history**
 - receive **event notifications** by email and SMS

Last but not least, it implements the latest security systems and protocols.

Connection accessories, tools and programming software

	Part number	Description
	88 970 111	M3 Soft: Millenium 3 programming software (CD-ROM)
	88 970 108	Memory cartridge for transfer and saving of programs
	88 970 102	3 m serial link cable: PC DB9 F → Millenium 3
	88 970 104	Millenium 3 → Bluetooth® interface (class A 10 m)
	88 970 109	3 m USB link cable: PC → Millenium 3
	88 970 110	Bluetooth® adaptor → USB (class A 10 m)
	88 970 123	1.80 m serial link cable: DB9 M/DB9 F
	88 970 510	0.5 m serial link cable: Millenium 3 → DB9 M
	88 974 106	Ready to use Millenium 3 Smart democase including:
		- a CD12 Smart, a CTN probe, a LDR probe, an I/O simulator - a 3 m USB link cable: PC → Millenium 3, a M3 Soft CD - a power supply 110-230 V~

Millenium 3 Virtual Display

Android smartphone and tablet as well as Windows XP/7 PC application

Man/Machine interface

TFT-LCD compact 4.3" and 7" resistive touch panels - MTP6/50, MTP8/50 & MTP8/70

Plug & Play remote LCD displays/keypads

Remote LED display - Input 0-10 V

Temperature probes and light sensors

NTC Temperature probes

LDR Light sensors

0-10 V Temperature sensors

Temperature probes Pt100 & Thermocouple

Temperature and signal converters

Thermocouple Pt100/Pt1000 → 0-10 V

PWM to 0-10 V/4-20 mA to 0-10 V

Other accessories and kits

Standard Smart and Essential product kits

Removable connectors

Potentiometer Ø 22 mm

Faceplates

Interfaces	em4 USB interface black	88 980 110
	em4 interface RS485 Modbus slave black	88 980 120
Accessories	em4 Set of I/O simulator for bases	88 980 150
	Antenna 3 m standard	88 980 160
	Antenna 3 m int/ext flat	88 980 161
	Antenna 10 m ext	88 980 162
	USB cable 3 m B type	88 980 170
	em4 soft (USB key)	88 980 140
Power supplies	Modular power supply 24 V--- 7.5 W	88 950 303
	Modular power supply 24 V--- 15 W	88 950 304
	Modular power supply 24 V--- 30 W	88 950 307
	Modular power supply 24 V--- 60 W	88 950 302

Description	Key features	Part number
Programmable touch panels		
MTP6/50 user kit*	- 4.3" color touch panel - Modbus RS232/RS485 serial port - USB port	88 970 492
MTP8/50 user kit*	- 4.3" color touch panel - Modbus RS232/RS485 serial port - Ethernet TCP/IP port	88 970 494
Cable em4-MTP6/50 & MTP8/50	For use with em4 interface RS485 Modbus interface (88 980 120)	88 980 171
MTP8/70 user kit*	- 7" color touch panel - 2x Modbus RS232/RS485 serial port - USB port, Ethernet TCP/IP port	88 970 496
Cable em4-MTP8/70	For use with em4 interface RS485 Modbus (88 980 120)	88 980 172
MTP6/50 - MTP8/70 programming kit (USB)	- USB - Mini USB cable - EB Software (CD)	88 970 501
MTP8/50 - MTP8/70 programming kit (Ethernet)	- Ethernet crossover cable - EB Software (CD)	88 970 502

* em4 cable not included in User Kit

PERFECTLY MATCH ALL OF YOUR REQUIREMENTS

Crouzet has identified six major applications for which Millenium 3 and em4 are particularly suitable:

ACCESS CONTROL

Control opening and closing of doors. Allow or restrict access with automatic detection, on a timer, or on certain days/time.

TEMPERATURES

Management of various parameters such as heating, cooling, fluid temperatures, operation, calendar-based function, frost protection mode, alarm management, etc.

WATER TREATMENT

Managing circulation pumps, monitoring levels, temperature and conductivity of the water. Irrigation control based on temperature, humidity, and day/night cycle

SMALL INDUSTRIAL MACHINES

Controlling the motor that unrolls the packing film. Controls cutting of the film after heat sealing and monitors the duration of the motor cycles. Controlling heat sealing times on blister packs, packaging bags, etc.

SOLAR WATER HEATING

Automation of operation and heating regulation, remote management of the installation.

LIGHTING

Managing flashing on illuminated signs
